Sun Chlorella USA Announces New Pet Sun Chlorella

March 31, 2009, Torrance, CA - Sun Chlorella, makers of Nature's Perfect Superfood™ since 1969, announced the release of their new Pet Sun Chlorella. A nutrient-dense superfood, Pet Sun Chlorella is now in tiny size tablets suitable for small pets.

Pet Sun Chlorella combines the unique benefits of Sun Eleuthero, an adaptogen, and Sun Chlorella, a unique combination of chlorophyll, protein, nucleic acids, amino acids, beta carotene, and lecithin. Recommended by America's top breeders and veterinarians, regular use promotes healthy skin and coat, improves digestion, and renews energy levels.

"Unlike most other products on the market, Pet Sun Chlorella is a natural, 100% digestible food. This means its ingredients are totally utilized by your pet's body. Pet Sun Chlorella is a perfect superfood full of natural nutrients, fiber, antioxidants, and blood detoxifying products.

Detoxification helps eliminate dangerous toxins and chemicals from the body, providing pets with enhanced immune functions, more vitality and energy, anti-aging effects, weight control, general well being and wellness, and improved overall appearance. Pet Sun Chlorella is chewable and pets like the taste," says William L. Farber, DVM, CAC.

In keeping with their goal to go "green", the company updated the packaging as well. The bottle is much smaller than the original packaging and has eliminated the need for an outer box, which has cut down on environmental waste.

About the Company:

Sun Chlorella has over 30 corporate offices located throughout Japan, the U.S., Europe and Asia. Sun Chlorella USA (www.sunchlorellausa.com) is a distributor of Sun Chlorella "A", Pet Sun Chlorella, Sun Eleuthero, Wakasa Gold, Wakasa Honey, Sun Eleuthero Extract, Sunergize, Sun Chlorella Cream and Sun Eleuthero Tea. In addition to delivering natural health products nationwide, Sun Chlorella USA supports natural and healthy living through educational seminars and publications.
